# 2022 FCWS Statistics

1,049
Life Decisions

have been made by abortionminded/abortion-vulnerable women! In 2021, there were 1,009 babies saved. FCWS has increased babies saved this year by 4%! 1,558

FCWS performed 1,558 ultrasounds in 2022.

This is a 49% increase from 2021.

**149%** 

This is as a result of FCWS performing ultrasounds as soon as possible and allowing for multiple ultrasounds if it aids in her choosing life (i.e. another ultrasound with the father of the baby present).

Because of FCWS's targeted client marketing to the abortion-minded, we have seen a

**126%** 

increase in the number of abortion-minded clients who have come into our centers in the past 12 months. It is incredible that our babies saved has continued to increase, even as the abortion-minded has increased. Because of this increase of abortion-determined clients, it is important to really be in prayer for the clients and those ministering to the clients.

2,055

FCWS had 2,055 spiritual discussions with clients, resulting in...

41

new faith decisions for Christ!

## 2022 Call Center Statistics

**726** 

FCWS fielded 726 abortion-minded callers.

**>** 

397

Telehealth Appointments  $\rightarrow$  56

life decisions were confirmed as a result of the telehealth center.

## 36% Out of State

36% of all abortion-minded callers were from out of state, representing 7 different states. Florida is in a unique position, where we are surrounded by states with more prohibitive laws. Women are searching for abortions in Florida and reaching us, by the grace of God. We are able to influence these women and connect them to life-affirming centers in their state.

80%

of telehealth appointments were kept.

64%

of telehealth appointments are scheduled for an in-person ultrasound.

## Prayer Texting Outcomes:

To receive prayer texts, text "4life" to 59769

1,700 +

FCWS has over 1,700 people registered for our prayer text intercessor group.

### Mentoring & Material Support IMPACT

# 267 Moms Mentored

The Earn While You Learn program allows women to be mentored, educated, and supported throughout their pregnancy through the first year of their child's life. These vital resources help the well-being of both mom and baby. Look below to see the community impact of these services.

## 608 Men Served

FCWS has increased efforts to ensure there is a male mentor scheduled for each shift.

This has resulted in 608 men served in 2022, an increase of 27%.

**27%** 

# Current Climate of Abortion in Our Area & FCWS Response:

We celebrate the overturn of Roe on June 24, 2022! God is truly on our side. Still, the work is far from done to end abortion in Florida, the nation and the world. Abortion was the leading cause of death in the world in 2022 with 44 million abortions. The enemies of life for each unborn baby are becoming more hostile and more creative. NPR recently reported that a doctor in the Netherlands is prescribing abortion pills that are mailed from India with the approval of the FDA. PRCs in Texas, where abortion has been outlawed, say that blackmarket pills are readily available there. Pills ordered and mailed are not counted in state or federal statistics. That is why we take no comfort in the fact that the FL Agency for Healthcare Administration (AHCA) reports that abortions in Duval County dropped from 6,832 in 2021 to 5,838 in 2022. Even in 2021, ACHA statistics reported that abortion pills accounted for more than half of all abortions in FL. We are convinced that abortions in Duval County and FL have increased, especially for unreported abortions by pills.

- FCWS is continuing to increase our targeted marketing towards the abortion-minded client so that we can minister lifeaffirming counsel. We will diversify our marketing efforts to include outdoor advertising as Google and big business has been attempting to limit the pro-life voice.
- We are expanding our telehealth center. Our research shows that if a "compassionate medical connection" is made early then the woman will be more likely to choose life. Additionally, FCWS has 5 medical OBGYNs who oversee the medical aspects of this ministry.
