

2022 FCWS Baker Center Stats

158 Life Decisions

have been made by abortion-minded/abortion-vulnerable women! In 2020, there were **118 babies saved**, so the Baker Center has increased babies saved by **34%** in the past two years.

182 FCWS Baker Center performed 182 ultrasounds in 2022.

This is a **125%** increase from 2020. **↑ 125%**

FCWS has begun doing ultrasounds as early as possible as it can increase a woman's likelihood to choose life. Repeat ultrasounds are also permitted if it will allow a person of influence in her life to see the baby.

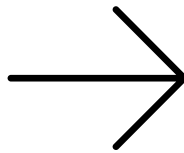

Because of FCWS's targeted client marketing to abortion-minded women, we saw a 131% increase in the number of abortion-determined women who came into the Baker Center.

131%

Because of this increase of abortion-determined clients, it is important to really be in prayer for the clients and those ministering to the clients.

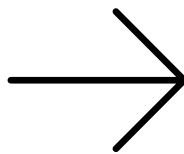

of all positive pregnancy test clients were at-risk for abortion.

of these abortion-minded/vulnerable women chose life!

417
