ABORTION RISK AMONG FCWS CLIENTS

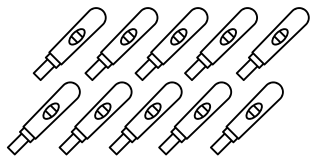

84% of our clients are at risk for abortion at their initial visit.*

*A client is considered at risk for abortion if they have either expressed that they are considering abortion (**abortion-minded**) or they have expressed concerns that increase the likelihood of them choosing abortion (**abortion-vulnerable**).

Our marketing efforts are proving to be effective in reaching more abortion-minded women. **We need your prayers** as the clients we serve are more and more determined to abort.

703

Positive pregnancy tests from abortion-minded clients in 2023, an increase of **35%** from 2022, resulting in **15%** more babies saved than in 2022.

PRAYER TEXT IMPACT

x2 **BABIES SAVED DOUBLED** within the first two years of sending prayer texts, with no other factors at play (i.e. new centers).

12 years later, FCWS now has over 1,700 people registered for prayer texts.

RELATIONSHIP STATUS

Nationwide Abortion Statistics

According to Planned Parenthood's 2022 annual report: they committed **374,155** abortions last year alone. **That is 1 every 84 seconds.** That does not even take into consideration illegal mail-order abortion pills or outside abortion providers.

374,155

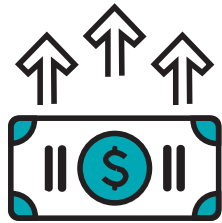

a Year

1,025

per DAY

43

per hour

Taxpayer funding for abortions **increased** last year.

Planned Parenthood received
1.8 MILLION

taxpayer dollars **per day** last year.

208 —→ **1**

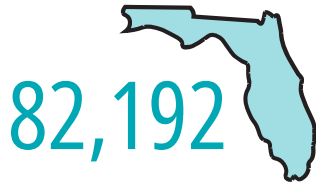

Planned Parenthood commits **208** abortions for every **one** adoption referral.

60 —→ **1**

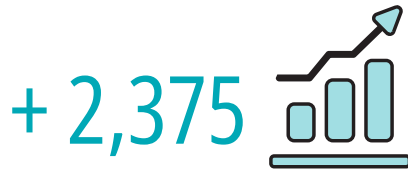

Planned Parenthood commits **60** abortions for every **one** prenatal care service.

Abortion Statistics in Florida & Jacksonville

There were 82,192 abortions performed in Florida in 2022.

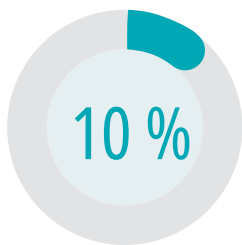

This is an increase in 2,375 from the previous year, even with the 15 week ban in place.

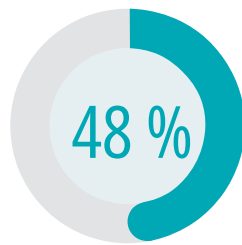

Of those 82,192, 6,708 traveled from out of state.

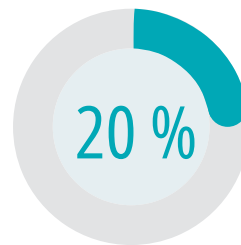

7,986 abortions took place in Jacksonville, FL in 2022.

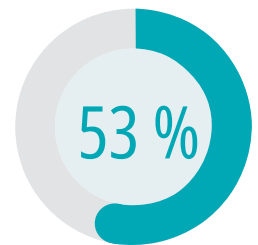

10% of Florida's abortions took place in Jacksonville, in 2022.

We have seen a 48% increase in the number of abortions in Jacksonville since 2017.

20% of women having medical abortions experienced adverse events, which can be life-threatening.

53% of abortions in 2022 were medical abortions (abortion pill).

X

A 2009 study in Obstetrics & Gynecology compared women having medical (abortion pill) vs. surgical abortions prior to 12 weeks gestation and found complications were **four times as likely** from medical abortions.

4 → 3

Jacksonville had four abortion clinics in 2022, and one closed last year. Please pray they continue to close!
