

Sonographer

Job Description

Reports To

Nurse Manager and Center Director

Basic Function

Provides client ultrasounds as well as support and care to the clients at specific locations under the authority of the Nurse Manager. Reports to the Nurse Manager for medical services and the Center Director for operations. An annual evaluation will be performed by the CEO with input from the Nurse Manager.

Principal Responsibilities

- Perform client ultrasounds according to the orders of the Medical Director.
- Maintain accurate records, care-plans and follow-through on physician's orders.
- Provide support and care to the clients.
- Carry professional liability insurance.
- Renew CPR certificate annually.
- Review clinic policies and procedures and infection control guidelines annually.

Qualifications:

- Be a committed Christian who demonstrates a personal relationship with Jesus Christ as Savior and Lord.
- Exhibit strong commitment and dedication to the sanctity of all human life.
- Exhibit strong commitment and dedication to sexual purity.
- Agree with and be willing to uphold the Statement of Faith, Statement of Principle, and the policies of the center.
- Exhibit strong interpersonal and administrative skills.
- Be certified in the performance of OB ultrasounds as a Registered Diagnostic Medical Sonographer (RDMS), or a Certified Diagnostic Medical Sonographer (CDMS) who will earn her RDMS in OB within one calendar year from hiring.
- Two years of experience in obstetrical sonography is preferred.
