

Vote "NO" on Amendment 4

Amendment to Limit Government Interference in Abortion

What it says:

Amendment 4 reads:

"No law shall prohibit, penalize, delay, or restrict abortion before viability or when necessary to protect the patient's health, as determined by the patient's healthcare provider. This amendment does not change the Legislature's constitutional authority to require notification to a parent or guardian before a minor has an abortion."

What it means:

Abortion Legal up to Viability for All

Viability is considered to be around 23-24 weeks gestation. There would be no restrictions on abortion until this time if Amendment 4 passes.

Abortion Legal up to Birth with consent of a healthcare provider

This "healthcare provider" does not have to be a doctor but could be anyone working in healthcare. There are no limits on the reasons a healthcare provider might deem an abortion "necessary" up until birth.

No Parental Consent Required for Abortion

Parents must be notified but are not required to consent to an abortion performed on a minor.

What to do:

Vote "NO"

The biggest difference in this amendment will be made at the ballot box. **Vote NO to Amendment 4.**
